

Invites you to

BANKING FRONTIERS' TECHNOVITI AWARDS 2015

A unique platform to unveil unproven yet promising technologies

The saying is that behind every successful man there is a woman. Likewise, behind every successful BFSI innovation there is technology.

In Finnoviti 2013, the financial services innovation awards by Banking Frontiers, nearly 75% of the winning innovations were based on IT. In the prevailing scenario of multi-products and multiple technologies, it becomes difficult for CIOs and CXOs to have a perfect view of an innovation that is relevant to them even as it is difficult for the innovators to get the desired attention from the CIOs and the CXOs. Therefore, there is a need for a platform that can correctly portray the backstage technology service providers who strive to empower the BFSI sector.

Banking Frontiers is pleased to present Technoviti 2015, a platform to unveil the unproven yet promising technologies, and an opportunity for technology companies to showcase their innovations that are relevant to the BFSI sector.

IT companies from around the world are invited to participate in the contest and earn recognition for their innovative products. They can win awards, get their products noticed by decision makers in the BFSI sector and interact with them to provide meaningful information

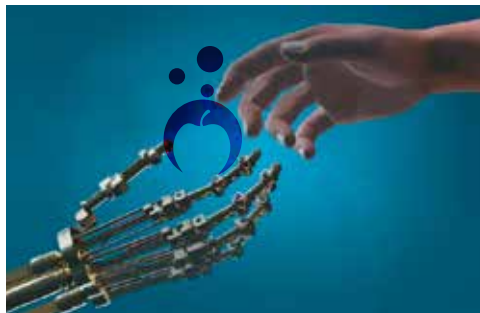

about the products. The applications will be studied and screened by a jury comprising leading CIOs, CTOs & CISOs in the BFSI world.

Technoviti Conference will bring together CIOs and CTOs of the BFSI sector and the products and services providers.

It will offer an opportunity for CIOs and CTOs to look at the various technology offers and assess their relevance to their organizations. On the other hand, Technoviti also offers a strong branding opportunity for the IT solutions providers who otherwise struggle to present their products to the CIOs even if these products are significant innovations.

The 25 most promising innovations will be honored with awards and the concerned innovators will have chance to present their innovations at the Technoviti 2015 Conference. Besides, details of the leading innovations will be included in the Technoviti Compendium that will be brought out on the occasion.

Every innovator desires the best recognition and acceptance for his innovation and we believe Technoviti is a premium platform for this purpose. We invite you to share details of your innovation/s and receive the required mindshare and market share in the BFSI sector.
